

I recently canceled my Bell South home phone and switched to a Cricket wireless phone. I wanted the ability to have my home phone with me, wherever I went in the Nashville area. Since I have cable internet access, a traditional landline phone was just not as practical. If LNP had been required, I could have carried my Bell South number with me to Cricket, saving a lot of time and effort in changing my new number with everyone who needed the new number. Please do not delay LNP for wireless any further.
